

# MATLAB Standalone Installation Instructions for Windows

## on a personal machine or Georgia Tech laptop.

Last Updated: 9/20/2018

Students, faculty, and staff may download an individual stand-alone copy of the software for each of the machines on which you are the sole MATLAB user (includes office and personal machines).

Note: Installation on a Georgia Tech system such as office desktop, lab workstation, classroom, server or a computer lab should use of the Georgia Tech MATLAB license server. Please visit <http://software.oit.gatech.edu> and use the Matlab Network Installation Instructions.

### How to get support?

Mathworks provides direct support to faculty, staff, and students. Please contact [support@mathworks.com](mailto:support@mathworks.com) and reference the GT license [621625](#) for installation or activation questions.

### MATLAB Installation:

Please visit <http://matlab.gatech.edu> to access Georgia Tech's MATLAB portal.

The direct link to the portal is: <https://www.mathworks.com/academia/tah-portal/georgia-institute-of-technology-621625.html>

1. Select the link "Get started now" under Download Matlab.

### MATLAB Access for Everyone at Georgia Institute of Technology

Georgia Institute of Technology has a Total Academic Headcount (TAH) license which provides campus-wide access to MATLAB, Simulink, and a variety of add-on products. All faculty, researchers, and students can use MATLAB on their personal computers and laptops.

Millions of engineers and scientists worldwide use MATLAB to analyze and design the systems and products transforming our world.

Not your phone numbers or devices?

Why am I seeing this page so often?

Can't log in because you don't have your phone or token?

[Troubleshooting FAQ](#)

3. Login to your Mathworks account. **If you do not have a Mathworks account, you will need to create one.** If you have ever created a Mathworks account (at a previous institution, or as part of using an evaluation version of Matlab), make sure to use that account instead of creating a new one.
4. A Mathworks account is separate from your Georgia Tech primary account.

To download MATLAB, a MathWorks Account is required.

MathWorks is pleased to provide a special license to you as a member of Georgia Institute of Technology. This license is intended to be used only for academic/course work and not for commercial purposes.

Create a MathWorks Account  
[Create](#)

Log in to your existing MathWorks Account  
[Log In](#)

Note: when creating a Mathworks account for the first time, you will be presented with a form as shown below. Upon creation, you will receive an e-mail with a link to confirm the e-mail address you entered.

To finish creating your profile, provide the following information:

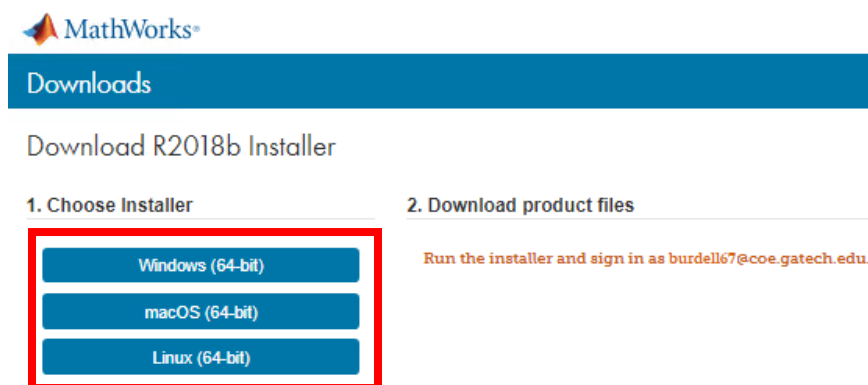

We recommend using a **password different from your university account.**

Email Address	<input type="text" value="burdell67@gatech.edu"/>	✓
	You will need to verify your email address	
First Name	<input type="text" value="George"/>	✓
Last Name	<input type="text" value="Burdell"/>	✓
User ID (Optional)	<input type="text"/>	
Password	<input type="password" value="*****"/>	✓
Password Confirmation	<input type="password" value="*****"/>	✓
Country	<input type="text" value="United States"/>	▼
Department	<input type="text" value="Electrical and Computer Engineering"/>	▼
What describes your role?	<input type="text" value="Educator, Researcher (College, University)"/>	▼
School / University	<input type="text" value="Georgia Institute of Technology"/>	
	<a href="#">Create</a>	

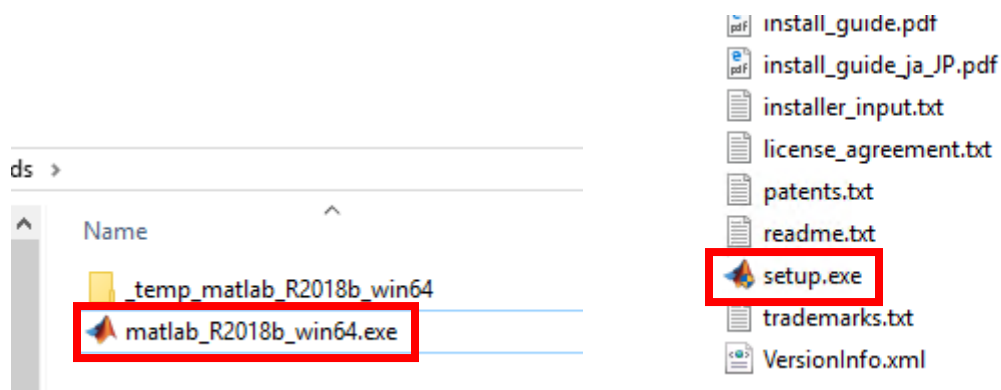

5. Once logged in under your Mathworks account, select the version of the software you wish to get. If you are in need of previous versions, you can do so by choosing from the menu on the right side.

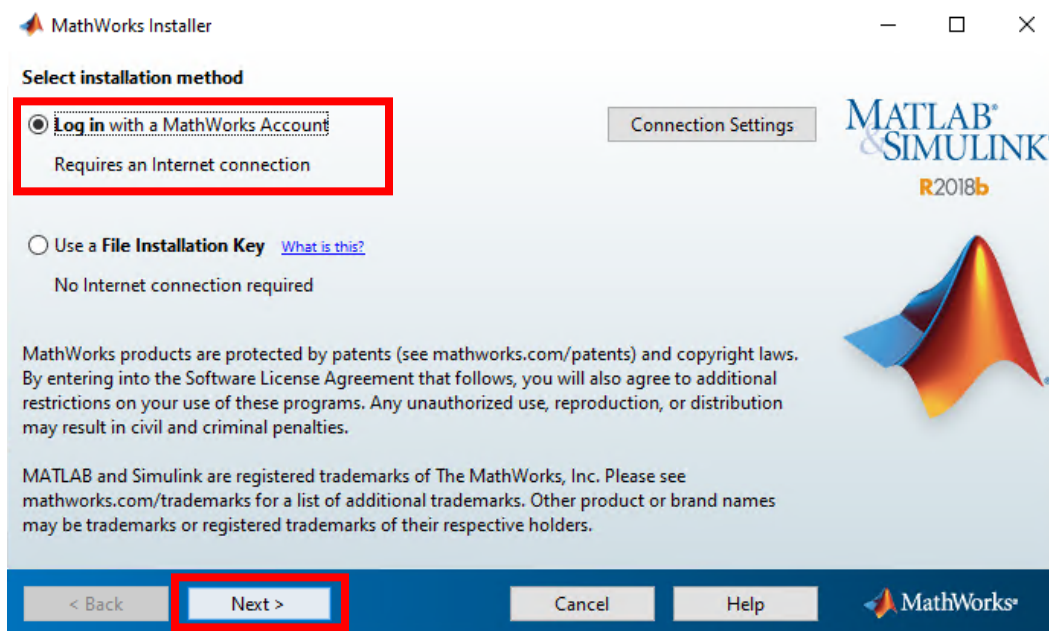

6. Choose and download the installer for your operating system.

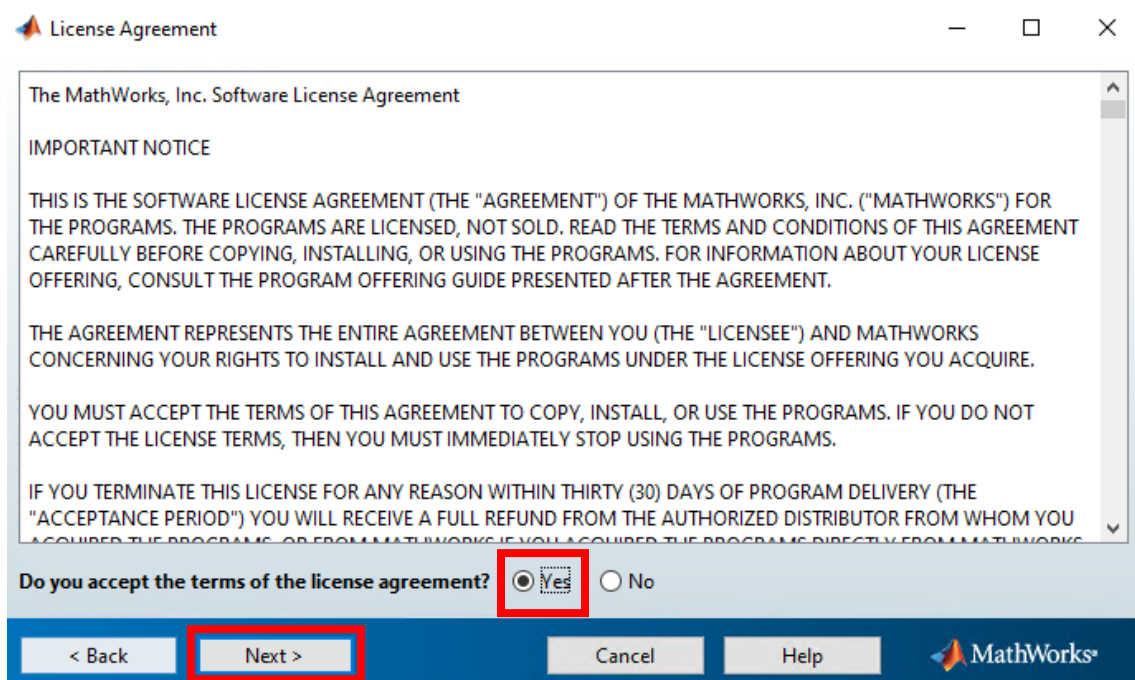

7. Once downloaded, find and click on the self-extract installer "matlab\_R2018b\_win64.exe". A temporary folder will be created and the installation will start automatically. If it does not start, find the "setup.exe" inside the \_temp\_matlab\_R2018b\_win64 and proceed.

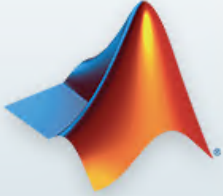

8. Make sure you select “Login with a MathWorks Account”. Then click “Next”.

9. Read the license agreement. If you agree with the terms and conditions, click “Yes”. Then select “Next”.

10. Input the credentials for your MathWorks account associated with your @gatech.edu email address. Then click on “Next”.

Log in

☒ Log in to your MathWorks Account

Email address:

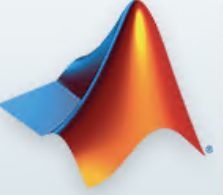

Password:

[Forgot your password?](#)

☐ Create a MathWorks Account (requires an Activation Key)

< Back **Next >** Cancel Help MathWorks

11. Next you will be shown the license option. Click “Next”

License Selection

Select a license or enter an Activation Key

The installer will determine which products to install based on your license.

☒ Select a license:

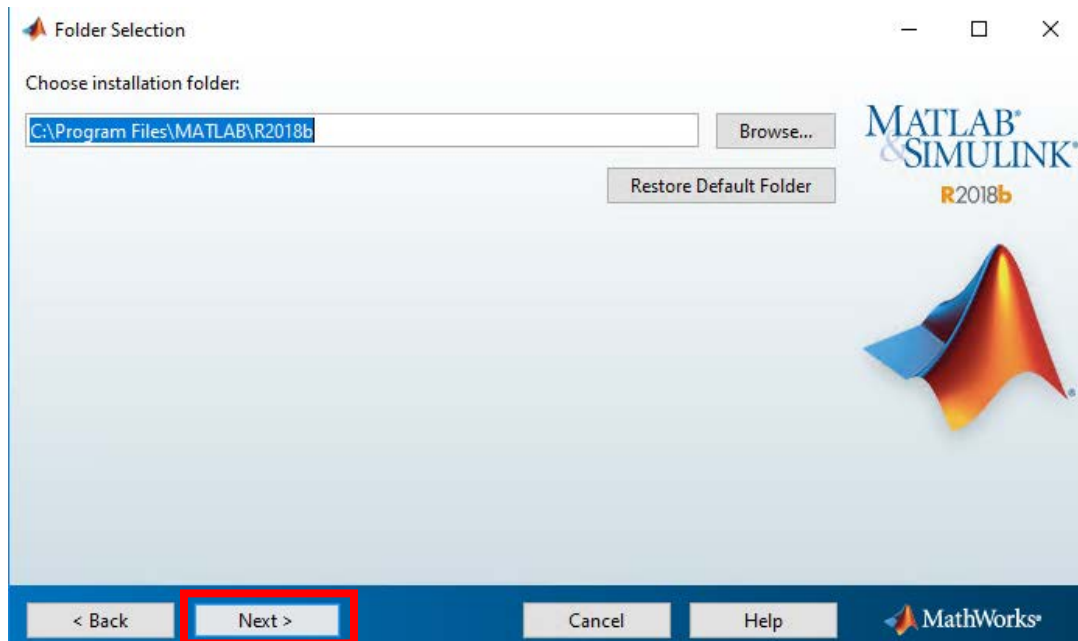

License	Label	Option
621625	Individual	Academic - Total Headcount

☐ Enter an Activation Key for a license not listed:

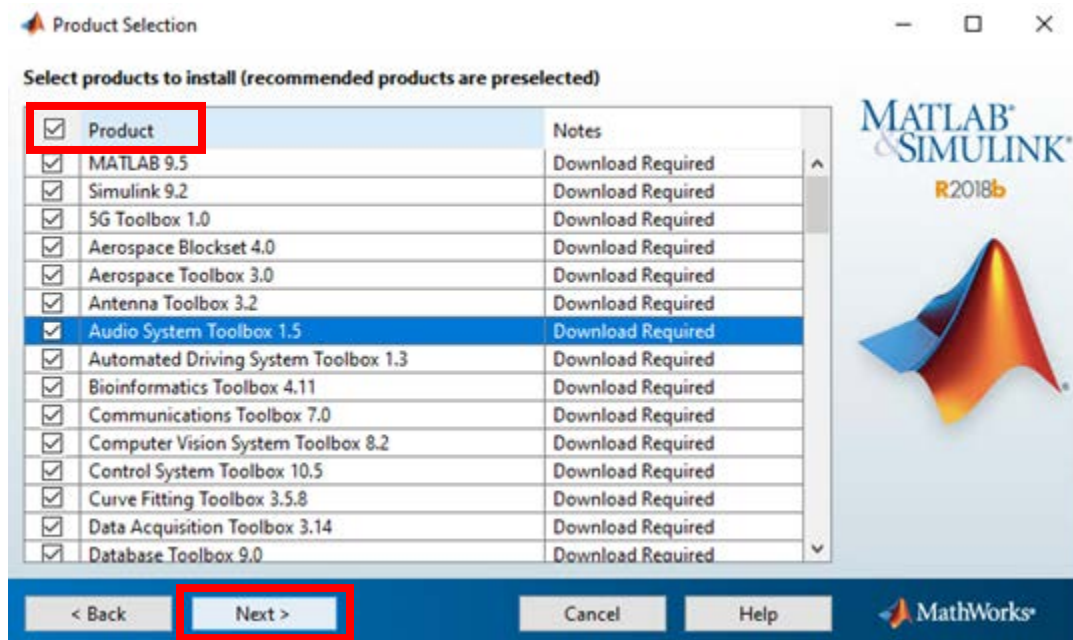

You may have received the [Activation Key](#) from the Administrator of the license.

< Back **Next >** Cancel Help MathWorks

12. Review the installation folder and make any necessary changes. Select “Next”.

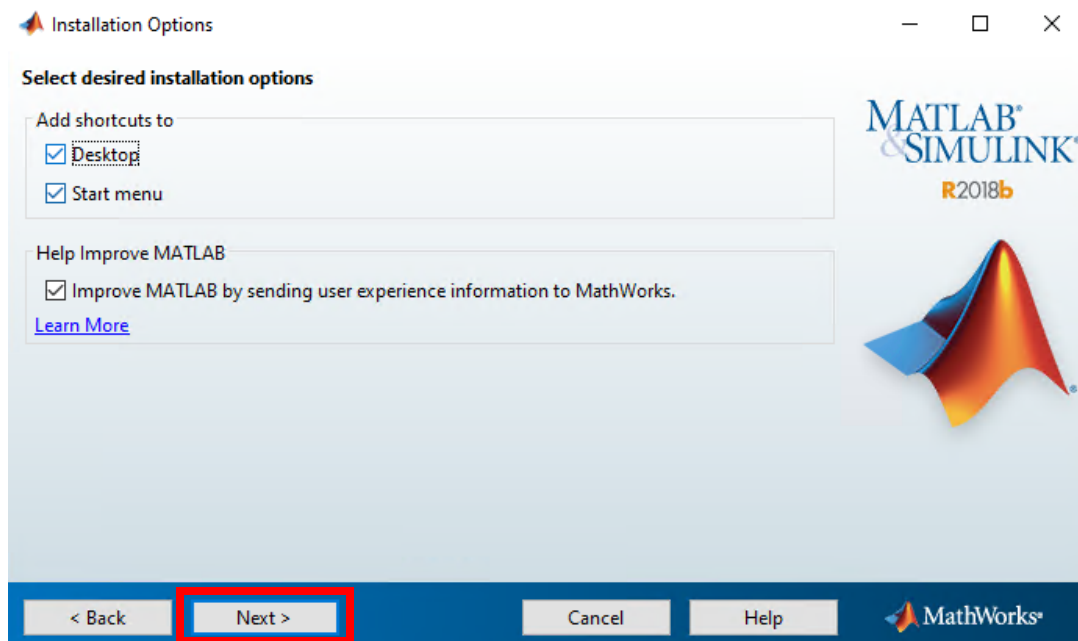

13. Review and click on “Product” to install all products available. Click “Next”.

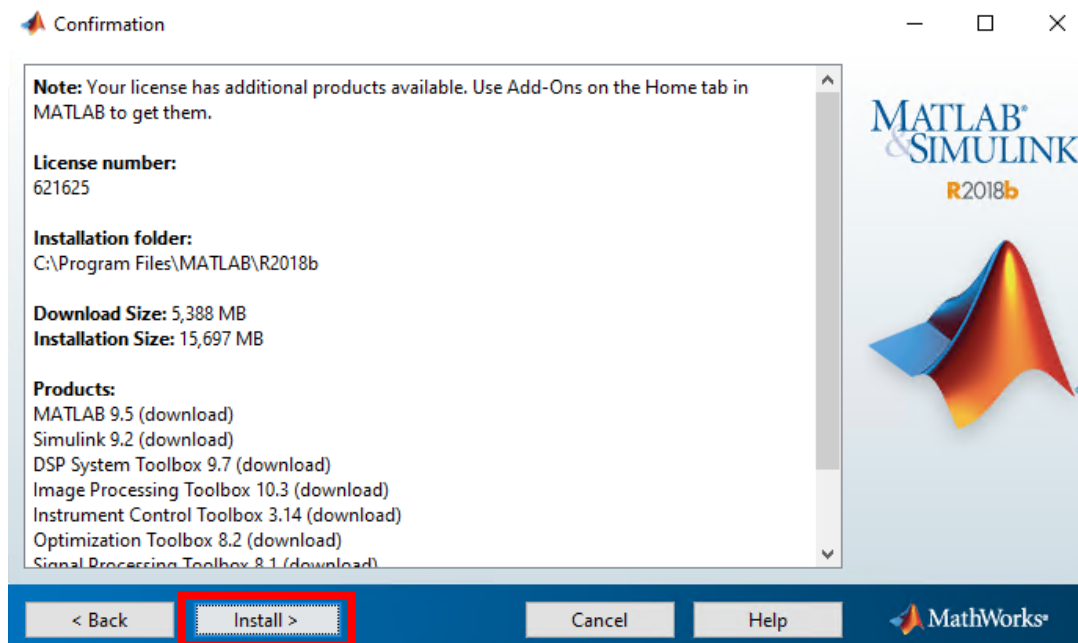

14. Review the installation options and click “Next”.

15. Review the installation settings and click “Install” in order to start the installation.

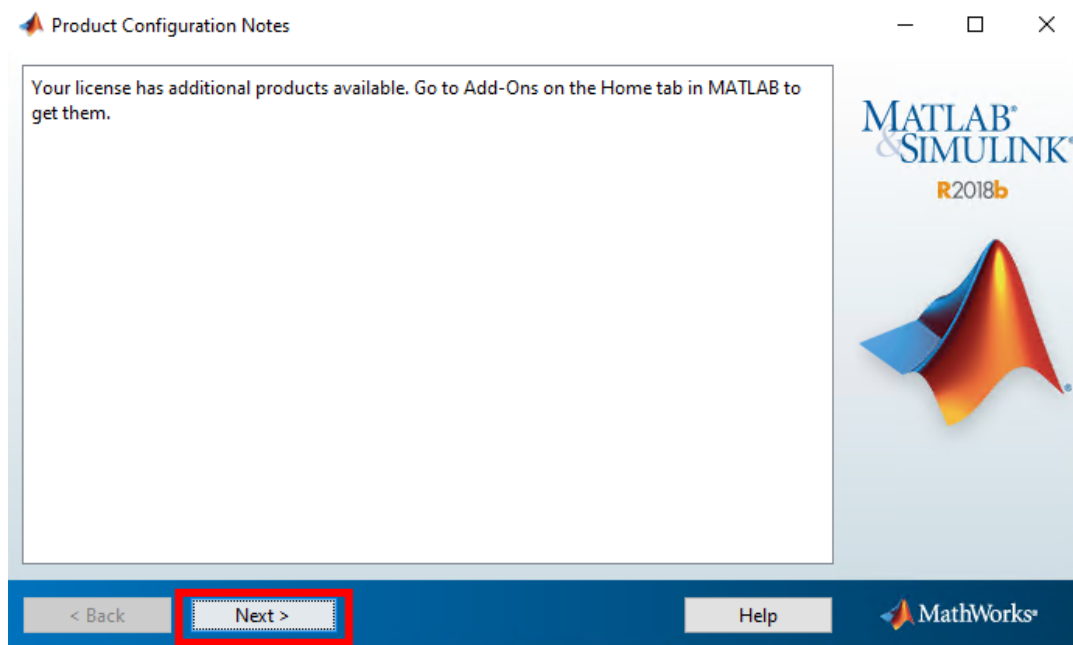

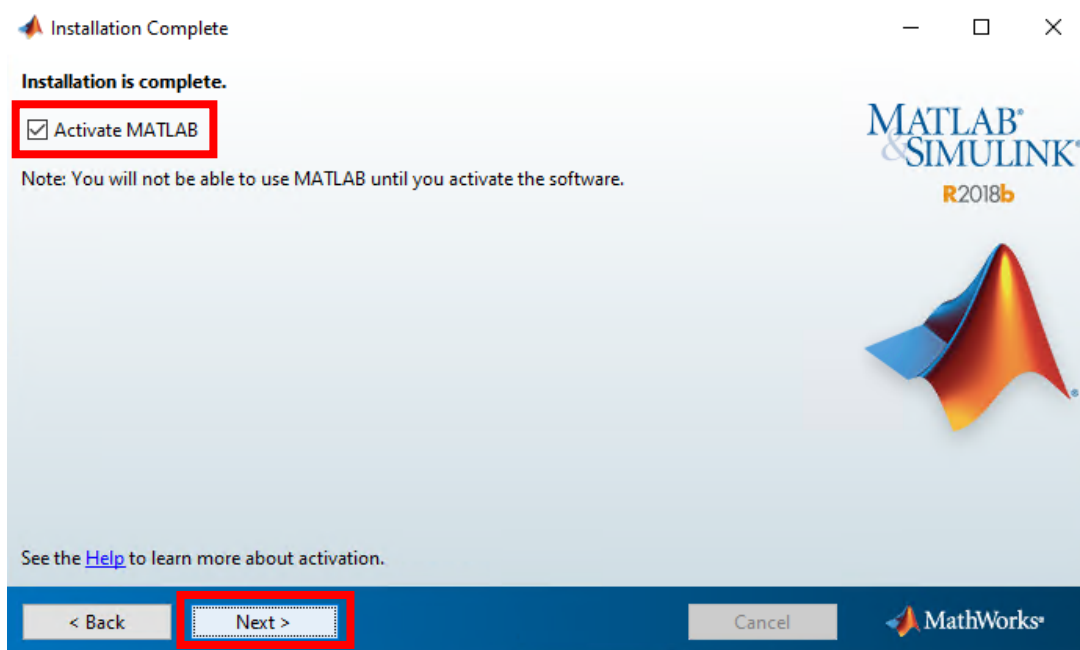

16. A progress indicator will be displayed. The installation of MATLAB can take 20 to 40 minutes, depending on the speed of your computer.

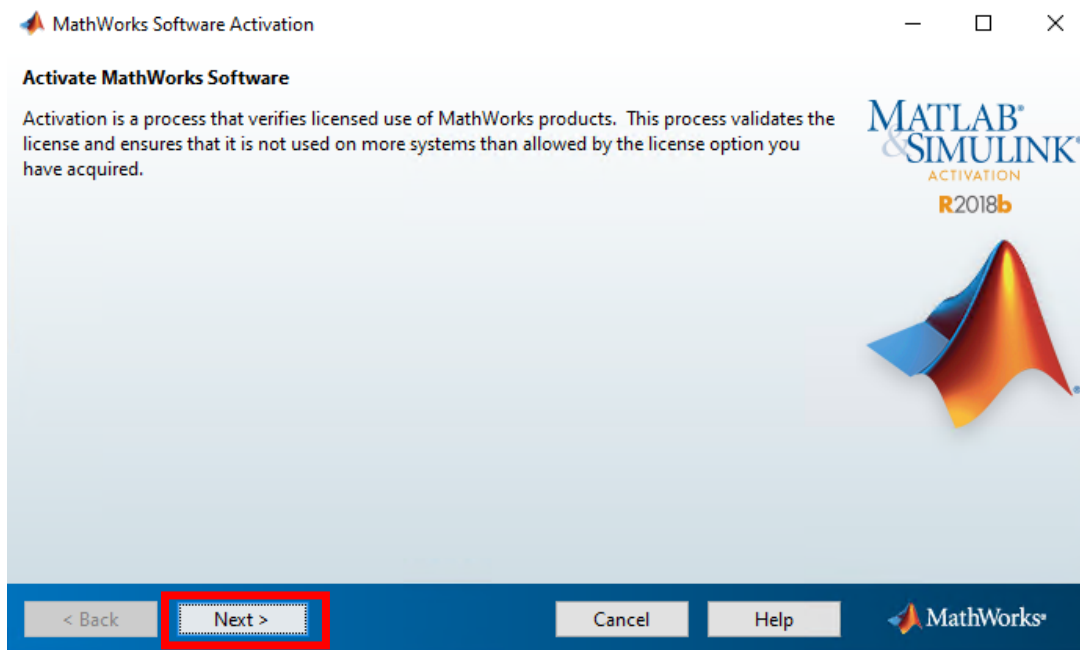

17. Once the installation is complete, review the additional configuration steps (if applicable). Click "Next".

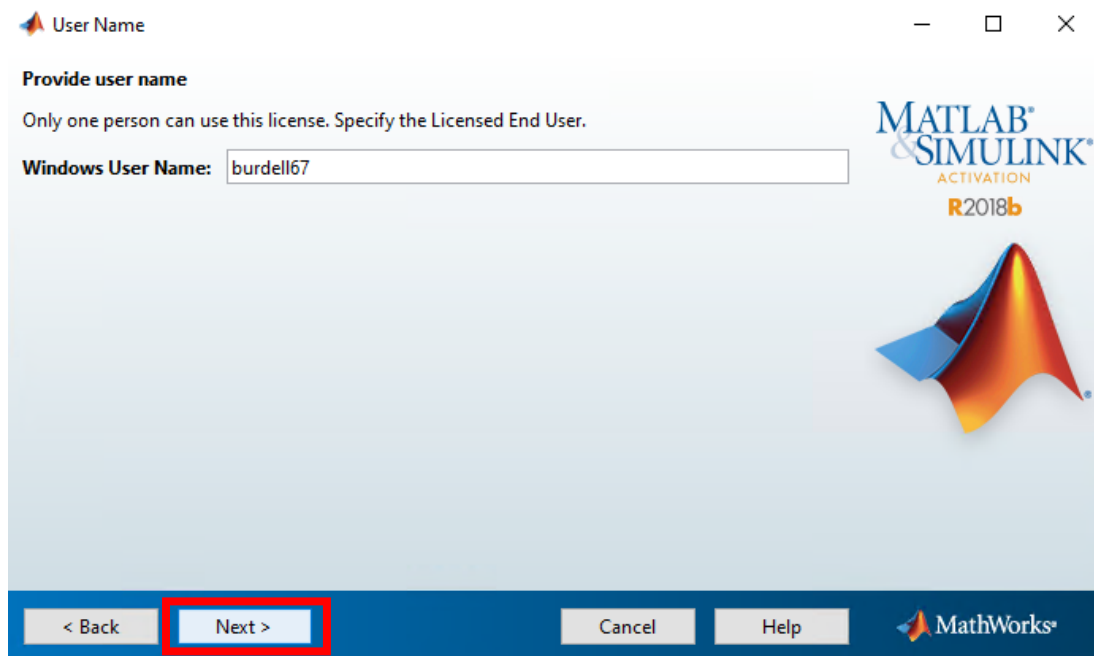

18. Upon the completion of the installation, you will need to activate MATLAB using your MathWorks account before being able to use the program. Check “Activate MATLAB”, and click “Next”.

19. Review the activation information and click “Next”.

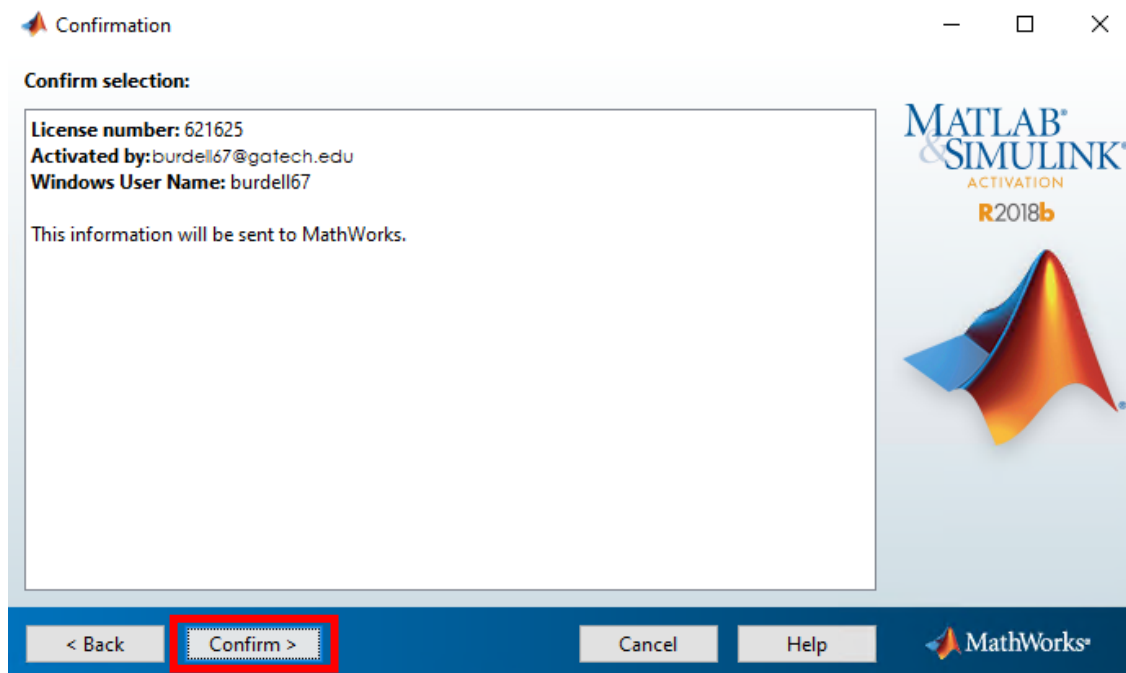

20. Make sure that “I will use the software” is selected and that your Windows User Name is inputted correctly. Click “Next”.

The image shows a Windows-style dialog box titled "User Name" for MATLAB & SIMULINK R2018b activation. The window has standard minimize, maximize, and close buttons in the top right. The main content area is light blue and contains the text "Provide user name" and "Only one person can use this license. Specify the Licensed End User." Below this, there is a label "Windows User Name:" followed by a text input field containing the username "burdell67". On the right side of the dialog, there is a logo for "MATLAB & SIMULINK ACTIVATION R2018b" featuring a 3D surface plot. At the bottom, there is a dark blue bar with four buttons: "< Back", "Next >", "Cancel", and "Help". The "Next >" button is highlighted with a red rectangular border.

21. Confirm your account information and click “Confirm”.

The image shows a Windows-style dialog box titled "Confirmation" for MATLAB & SIMULINK R2018b activation. The window has standard minimize, maximize, and close buttons in the top right. The main content area is light blue and contains the text "Confirm selection:". Below this, there is a text box displaying the following information: "License number: 621625", "Activated by: burdell67@gatech.edu", and "Windows User Name: burdell67". Below the text box, it says "This information will be sent to MathWorks." On the right side of the dialog, there is a logo for "MATLAB & SIMULINK ACTIVATION R2018b" featuring a 3D surface plot. At the bottom, there is a dark blue bar with four buttons: "< Back", "Confirm >", "Cancel", and "Help". The "Confirm >" button is highlighted with a red rectangular border.

22. Click the “Finish” button. Your installation is complete, and you are ready to use MATLAB.

Contact your Computer Support Representative (CSR) if you are having problems installing the software. Also, please review the documentation accompanying the software or visit the official site at <http://www.mathworks.com>.

Thanks and good luck.

-ECS Team-
